DETAILED ACTION

Claims 1 – 11 and 13 have been examined. Claims 12 and 14 have been canceled by Applicant.

Claim Objections

Claims 1 – 11 and 13 are objected to because of the following informalities:

- Claims 1, 11 and 13 contain bulleted lists. Their inclusion within the claims is unnecessary and cluttering. Their removal is suggested.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 11 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 11 and 13 contain the phrase “and/or” which renders the claims indefinite. It is unclear if a movement of an arm engagement point, a frame engagement point or both is required. Appropriate correction is required.

Allowable Subject Matter

Claims 1 – 11 and 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record, either alone or in combination, neither disclose nor suggest a caster including a suspension and an arm wherein said arm modifies a distance between an axis of said arm and an axis of said suspension via engagement of said arm along an adjustment rack.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Purnell (5,581,843) discloses a wheel assembly for a baby stroller;
- Lin (6,663,122) discloses a stroller frame.
